Packaging options - 6 packs, 36 packs, and a Starter Display.

This retro favorite has been around for over half a century. The cushioning piece of cork really lets you gain control of your guitar pick, giving you the ability to keep your pick from sliding off of your finger.

# Exotic

## Sheesham Wood

This amazing organic material will leave you shocked at the warm tone it creates. It has a natural wood grain going vertically down the pick helping tone better flow from your strings while simultaneously adding strength to the pick. It has tapered edges that allow for a swift release from your strings.

Packaged to 3 picks per pack

## Coconut

Coconut Shell is a durable and bright organic material that you are sure to want to add to your guitar pick collection. It creates increased volume during play and has very tough and dense properties. Each pick is hand-made with a smooth polish on one side and an indented, roughened grip on the other side.

Packaged to 3 picks per pack

## Blond Wood

This beautiful blond wood creates a surprisingly beautiful rich tone. It is great for jamming with when you need a nice rhythm bass sound, as it eliminates any brassy tones.

Packaged to 3 picks per pack

## Horn

This natural horn material is shockingly bright and durable. It has a beautiful transparent look of brown and amber. It also has beautiful contoured edges and a polished surface that is extremely fast off of your strings.

Packaged to 3 picks per pack

# Pin-Up Girls

These colorful picks on our durable Acetal material are sure to impress. Each beautifully designed pick features pin-up artwork by artist Susan Heidi. Grab a pack of these sassy pin-up girls and they will definitely add a unique flair to your music.

## ◦ CARNAUBA WAX ◦

Carnauba Wax produces a hard, clear protective finish. This all natural wax is derived from the Carnauba palm leaf found in the jungles of South America. It is nature's most effective defense against all of the elements that threaten the finish of your guitar. We custom blend this wax for a brilliant and impenetrable shield.

## PRO BUFF

14" x 18" Large Polish Cloth, sewn on all four sides, 100% cotton and machine washable.

## STRING Zip

This greaseless cloth acts like a magnet to dust and lint that builds up between your string bindings.

## PRO LEMON

Throw away all your other guitar polish that contains smelly, harsh chemicals! Clayton Pro Lemon polish replenishes essential oils as it cleans and conditions the finish of all fine wooden instruments, using no harsh chemicals, & restoring your instrument's finish to its original luster.

## PRO SHINE

Pro Shine is some of the best polish on the market. It is made from all natural & organic oils. It creates a beautiful shine while cleaning your guitar's surface, and it won't create any build-up. Plus, it is non-toxic.

## Clayton Lever-Lock Capo

Looking for the perfect capo? We have just what you need. This traditional lever capo design is fully adjustable without any chance of slippage. When open it will not fall off your guitar and can be moved up the neck and repositioned quickly. It is made of a reinforced glass fibre material that can work with both curved and flat necks. With its plastic composition it has less chance of scratching and scuffing your guitars.

## Guitar Straps INNER-LOCK Strap

Finally, a simple strap lock! Simply place the guitar button into the hidden hole on the bottom side and pull forward. The end tab will then lock into the secondary front hole. Once in the forward slot it is trapped. Each strap is 2" woven material, with edge sewn leather end tabs. Sewn to meet airline safety standards for unparalleled strength. No metal components to dent or scratch your guitar. Available in a variety of colors. Fully Adjustable.

## CLAYTON CLASSIC

Sure to lighten the load on your shoulder, these high quality straps are made of thick, heavy genuine leather. No expense has been spared here! Straps are adjustable with thongs on the end for headstock fastening.

Available in 2 colors - Black and Dark Brown  
Available in 2 sizes - 2.5" and 3.5" width

# Clayton Slides

## Brass Socket Slide

Musicians have long been known to use actual tool sockets for playing because the 12 star interior grip keeps the slide locked on your finger. Tool sockets have a drawback though; they are too heavy on one end. Clayton corrected this feature by equalizing the weight on each end, which allows for consistent balance, weight, and tone. To enhance the slide even more, Clayton has made it in brass for enhanced quality and sustainability of tone. A cut-out relief has also been added for additional comfort during play. Truly a superb piece of craftsmanship.

Available in 3 sizes: Small, Medium and Heavy

## American Hottie Slide

Expanding from our American Hottie Picks, we now offer the vintage style designs of Garry Palm on a quality crafted Porcelain slide. Porcelain exhibits a high resonance and is considerably stronger and harder than ceramic slides. In addition it gives you a high biting attack that is sure to impress. The American Hottie Slides come in three sizes with an ultra-absorbent interior to absorb finger moisture.

Available in 3 sizes: Small, Medium and Large

# Clayton Slides

Clayton Glass slides are available in 3 sizes. Each comes with a protective case to protect your slide from breakage. Each slide comes with a "Bottleneck Slide Technique" instruction sheet, so that you can get the most out of your slide.

## Socket Slide

The Clayton Socket Slide has turned what musicians have known for decades into a reality. Sockets have been known to make great guitar slides due to their 12 star interior gripping. We have enhanced the traditional socket by extending the length and opening up the other end. This slide locks onto your finger, giving you more control and comfort during play. Made of heavy chrome.

Comes in 3 sizes: Small, Medium, and Large

## Heavy Wall

## Standard Wall

## Brass Slide

Brass creates some of the most amazing harmonic tones. This beautiful slide is polished to perfection.

Available in 3 sizes: Small, Medium, and Large

## Custom Guitar Picks

*Why Choose Clayton Custom?*

### 48 hour Turn-around

We have been doing custom imprinting for so long (20 years) that we have the whole process down to a quick and efficient science. Most of our competitors take anywhere from 4-6 weeks to produce custom picks, plus they hold on to your money while they spend all that time making the picks! Ordering custom guitar picks is very exciting, and we don't want you to have to wait for weeks to get them. We pride ourselves on being able to provide custom guitar picks faster than any competitor!

### Great Prices

Our prices start at only \$24.99 for 30 picks! Plus, we won't charge you a set up fee. Nothing is spared when it comes to a quality guitar pick that is both promotional and practical.

### Quality Materials

We provide only the highest quality pick materials currently available on the market. We want your pick to play as good as it looks. You can be assured with Clayton, Inc. that you are always getting top of the line material.

### Fully Trained Staff

Our fully trained staff can assist you with any questions you may have concerning custom imprinting. Their dedication and experience is what separates us from the competition. From the warehouse to sales, to the credit department and officers, many of them have several years of experience with the company.

# Acetal Polymer

Strength is key to the ultimate performance. The composition of this pick gives you just enough stiffness to give you those killer power chords, but has just enough give so that you're not busting strings left and right. Plus this pick has a matte surface that prevents it from moving or slipping in-between your fingers.

Available in 3 shapes - Rounded Triangle, Standard, and Small Teardrop  
Available in 8 gauges - .38mm, .50mm, .63mm, .80mm, 1.00mm, 1.26mm, 1.52mm, and 1.90mm

there's nothing else like it!

# ULTEM *Gold*

Available in 3 shapes - Rounded Triangle, Standard, and Small Teardrop

Available in 8 gauges - .38mm, .45mm, .56mm, .72mm, .80mm, .94mm, 1.07mm, and 1.20mm

Packaging options - 12 packs, 48 packs, and a Starter Display

Ultem is remarkable for creating crisp clean tones on even the dullest of strings. This pick is made of the highest grade material to ensure your guitar produces the cleanest, brightest tone available. This pick closely resembles the true sound of actual tortoiseshell, that is so widely desired. However, it will not fracture like tortoiseshell and is one of the strongest picks on the market.

# DURAPLEX

*GREAT SOUND! GREAT STRENGTH!*

Duraplex has been in the guitar pick market for years. What sets our Duraplex apart from others is that we use the highest form of the material to resist notching and give ultimate strength. Also, our edges are polished, so there are no annoying tabs to get in your way!

Available in 3 shapes - Rounded Triangle, Standard, and Small Teardrop  
Available in 6 gauges - .50mm, .60mm, .73mm, .88mm, 1.00mm, and 1.14mm  
Packaging options - 12 packs, 72 packs, and a Starter Display

# BLACK RAVEN

*SOMETHING TO RAVE ABOUT!*

This pick has been specially formulated to reduce that annoying string pop. Plus, it has a matte surface that allows you to hang on to your pick without any unwanted slippage.

Available in 3 shapes - Rounded Triangle, Standard, and Small Teardrop
